

YouTube Channel Creator

We were disappointed to see YouTube censor your videos or completely remove your channel.

Your YouTube (YT) channel and videos have been archived by altCensored.com (altCen). The channel and video meta-data is stored at altCen, the videos (with torrents) are archived at the Internet Archive (archive.org/IA).

Anyone can now download your entire channel or use embeds (similar to YT) to play videos on any website.

(The search bar at the top of every altCen page is the best way to locate channels and videos. YT channel and video id's can also be used (e.g. <https://www.altCensored.com/search?q=yN4Uu00ImTg>))

Downloading Videos:

Channel RSS feeds contain torrent links, allowing an RSS feed capable torrent client (e.g. [qbittorrent](#)) to both browse and download items. The feed is linked from the RSS icon on the channel page, for example:

https://www.altcensored.com/channel/UCDEFA_8ZyngmQXUvw7MwI9w/feed

Embedding Videos:

Videos can be embedded from altCen using the same syntax as YT:

<https://www.youtube.com/embed/yN4Uu00ImTg>

<https://www.altCensored.com/embed/yN4Uu00ImTg>

Videos can be embedded from IA using a similar syntax as altCen/YT:

<https://www.altCensored.com/embed/yN4Uu00ImTg>

<https://archive.org/embed/youtube-yN4Uu00ImTg>

(info on embed from IA: <https://archive.org/help/video.php>)

The string at the end of the embed (yN4Uu00ImTg) is the unique YT videoID

(<https://developers.google.com/youtube/v3/docs/videos>), and is included in the channel RSS feed.

Good luck, together we are stronger! Please consider promoting, supporting, and contributing to open sourced altCensored.com, an Unbiased Community Catalog of censored YouTube videos: "we show what they hide".
